

You like to play with me  
you drive me wild  
you hurt me really deep  
and I don't know why  
it seems to me that I'm a long, long way from home

I went to far on the road to nowhere  
it's you and me in a living nightmare  
I gave up everything just to stay  
close to your heart

You make me haul like the wind  
I don't know how you got under my skin

Crying, shake it up  
if I cry like u baby  
does it do it for you  
crying, am t enough  
if I cry till forever  
will I ever get trough

I see the trouble  
and I feel the danger  
is my heart heating for a heartless stranger

just say a word and make me  
see the things I don't understand

I'm freezing cold  
and its getting colder  
I'm losing hope  
I can't wait no longer  
If I could read your mind  
I wouldn't come around here no more

You better know that I'm losing my bead  
and when I go love will never come back

Repeat chorus

You gotta know' that you pushed me to far  
you'll soon know how that feels  
I tell you now there's only one way out  
my last chance is, I'll turn it around

Repeat chorus
