

Don't Mistake It For Love

Doro

What a dream come true I got the biggest crush on you
My whole body shakes
I know I'm gonna break
But God I'm craving for more
The only thing I really feel is the regret of my heart
Killing you with kindness
Like a junkie pushing all his shots

I'll take a bullet in for you
Or whatever you want me to
But don't you mistake it for love
I'll walk the razors just for you
To show you a thing or two
But don't you mistake it for love

When you come in view
I'm keeping cool but man I'm so damn hot for you
I thought it would be fun
But then again I think it's turnin' upside down, down, down

Many times I realise all the damage that is to be done
If you wanna see over the edge
I already feel like a loaded gun

So you wanna play?
You wanna play with fire baby?
I'll show you fire
You're lookin' right at it
Watch me burn into your bloody soul

Many times I realise all the damage that is to be done
If you wanna go over the edge
I already feel like a loaded gun

I'll take a bullet in for you
Or whatever you want me to
But don't you mistake it for love
I'll walk the razors just for you
To show you a thing or two
But don't you mistake it for love

I'll take a bullet in for you babe
Or whatever you want me to
But don't you mistake it for love
I'll walk the razors just for you
To show you a thing or two
But don't you mistake it for love
