

## Fight By Your Side

Doro

The moon above you  
It seems so sad  
But that's not the reason  
Why I feel so bad  
I can't believe you're walking out that door  
To go and fight some crazy war

Some politicians  
Are born without hearts  
They declare new borders  
Tear families apart  
You came into my life many years ago  
I pray to God, you'll come back home

I will fight by your side  
For peace that lasts forever  
And I will scream to all mankind  
We're all in this together  
I pray every mother's son  
Will someday lay down his gun  
I will fight by your side  
I will fight by your side

Your father died  
On the day you were born  
Did you ever know  
What he was fighting for  
They send you far away  
Where I know the world's on fire  
I only have one desire

I will fight by your side  
I will fight by your side
