

I Adore You

Doro

When I drive alone at night
And sit around
And see the frowns
Of other people down,
It bores me

And when I have to listen to
The points of view of people who
Are way into bad news,
It bores me

I would rather hear
Hear you whisper in my ear
That you adore me

That you adore me
And only you get my love
I adore you in a million ways, night and day
I adore you and only you can get my love
In so many ways I'm just wantin' to say
I adore you

When you reach and touch my hand
I understand that you're a man
Who loves me like no other can,
It floors me

It makes me want to be with you
And do the things you want me to
To show you I adore you,
You floor me

I would rather hear
Hear you whisper in my ear
That you adore me

I adore you

I adore you
I adore you

I adore you
