

# I Know You By Heart

Doro

You come around  
You're feeling down  
She left you on your own  
Without a sound  
Your eyes they lead me  
Into the danger zone

I know  
I do  
Just what you're up to

I know you by heart  
And I know what you'll do to me  
I know you by heart  
And you know that it's killing me  
To see you now

You come and go  
Don't wanna know  
What's really inside of me

The way I feel  
Is no big deal  
To you - but it is to me

I gave  
To you  
Everything I had

I know you by heart  
And I know what you'll do to me  
I know you by heart  
And you know that it's killing me  
To see you now

There ain't no future - in yesterday  
I should just turn, and run away  
But when you look at me that way  
It makes me wanna let you stay  
What can I say?

I know you by heart  
And I know what you'll do to me  
I know who you are  
And you know that it's killing me  
To see you now - ohoh ahah  
I know you by heart  
And I know what you'll do to me  
It's killing me - ohoh  
I know you by heart  
I know you by heart  
I know you by heart  
I know you by heart
