

## Like An Angel

Doro

I've had battles with the devil  
And it's left a scar you're two  
Why do I forget my troubles  
Whenever I'm with you

Like an angel  
Are you an angel  
You have saved my heart  
And you play your part  
Like an angel to me

Yes I met you on my darkest day  
When my world turned cold as ice  
You lit my cigarette  
And you took me away  
It felt like paradise

Like an angel  
A real angel  
Drown me in your light  
Take me through the night  
You're an angel  
I have fallen  
From the dark above  
Into the arms of love  
You're an angel to me
