

## Warrior Soul

Doro

The times are so weird, the people here  
Feel constant fear and danger  
They need to be saved before it's too late  
In the eyes of every stranger  
Sometimes it seems enemies  
Are not very far away and I wanna say

Show me a warrior's soul  
Let me reach into your heart  
Let me see and feel the fire  
That I can be a fighter  
Become a warrior too  
Just like you  
Every star wonders where you are  
Are you trapped and still alive  
I've tried to get through,  
I'm needing you  
To let me know that you survived  
Sometimes it seems the enemies  
Are not so far away  
And I don't wanna stay

Don't let our dream come true  
Become a nightmare  
Oh, please don't  
I'm depending on you  
To come and save me  
Come on now  
You said you'd always love me  
I need to know
