

# You Can Be Replaced

Dot Allison

We took all the laws  
And threw them away  
We're the only ones  
Who saw the call Mayday

Held by the throat  
With backs against the wall  
The bottom looks like up  
When you have got the ball

We are your rivals  
We're the survivors  
I'm not phased  
You can be replaced

You've got the power  
To give your cluelessness a voice  
Saying loads of nothing  
With a lot of noise

Walk down the street  
Resentment in your eyes  
There's something free in us  
That you despise

We are your rivals  
We're the survivors  
I'm not phased  
You can be replaced

We are your rivals  
We're the survivors  
I'm not phased  
You can be replaced

We are your rivals  
We're the survivors  
I'm not phased  
You can be replaced

We are your rivals  
We're the survivors  
I'm not phased  
You can be replaced

We are your rivals  
We're the survivors  
I'm not phased  
You can be replaced

We are your rivals  
We're the survivors  
I'm not phased  
You can be replaced
