

## Be Leaving

Dot Hacker

I'm gonna leave you out  
Coz you're perishable  
Out on the counter  
Oh am I out for the count?

Don't let it spoil  
Don't let it ruin  
Don't let it rot

It's not you (?) I believe in you  
You can't leave it out before the option needs you  
Are you out of line?  
Through the mind inside  
How do you have a line?  
Through the mind inside

Don't go getting your hopes up  
they told me they'd rather stay down  
Always feel left out  
I will believe you out  
Believe you out  
Believe you out  
Believe you out

Oh you'd better believe,  
Oh you'd better believe,  
Oh you'd better believe oh oh you better...

Oh protocols for me  
Oh blow your glass idea

If you'd rather stay down  
If you get trapped forever  
Maybe you'd best be left out  
Believe yourself where you are  
Before I believe you out  
Believe you out  
Believe you out  
Believe you out

Oh you'd better believe,  
Oh you'd better believe,  
Oh you'd better believe oh oh you better...

Do you really believe?  
Do you really believe?  
Do you really believe them?
