

Inhibition

Dot Hacker

Shown often are
The defenses round your heart
Anyone trying to climb will fall from high

So you blow off the stars
Because they won't shine quite where you want
Everyone will look at another sky for you

Inhibition
Everyone will still adore you

And you show off your scars
And you describe the size of the shark
Everyone's dying to lend you a hand

Inhibition
We'll help you if we can
Everyone will still adore you

Everyone will still adore you
