

## The Wit Of The Staircase

Dot Hacker

I said my "goodbyes", didn't I?  
Seemed so ideal to the outside  
Burning and tying on  
I should have said it before I....  
Before I'd gone,  
Before I'd gone,  
That's the wit of the staircase

Shouldn't have left me alone  
Winchester type paranoid  
Atlantic ocean that's your mind  
I should have said it before I...  
Before I'd gone,  
Before I'd gone,  
That's the wit of the staircase

Play it calm in time we will fall in love  
Play it calm in time we will fall in love  
Play it calm in time we will fall in love  
Forever forever forever....

They'll find me, they'll find me when I wash up...

They're out there  
I've seen them out there  
I'm not crazy, I'm not...  
Not crying wolf, I'm....  
I'm not crazy, I'm not...  
I see them out there in the real world, out my window  
They're already in my head now, behind my eyes
