

All The World Is Lonely Now

Dottie West

Yesterday you said you love me
Today you say it's over now
Why did you go away and leave me?
All the world is lonely now

I tried so hard to make you happy
With love your heart would not allow
It's hard to know you'll never love me
All the world is lonely now

Goodbye, good luck, and may God bless you
I'm tired to get along somehow
I know I'll never love another
All the world is lonely now
All the world is lonely now
