

## Gonna Be My Baby

Double You

Gonna be my baby  
You have got to love someone  
Gonna be my lover  
Girl I'm telling everyone  
Gonna be my baby  
I can't treat you like a friend  
I can't treat you like a friend

Thank you for the love  
And then I want to say  
Thank you for the dream  
I want to get away  
Thank you for your help  
And now I want to stay  
Thank you for the love  
Thank you for the love

Gimme hope and gimme shelter  
That I have lost along the road  
Hand in hand we'll walk together  
And you know you're not alone  
Thank you for the time, grateful it will be  
Thank you for the life you spent with me  
Welcome to my dream and I want to say  
Thank you for the love  
Thank you for the love
