Gonna Be My Baby

Gonna be my baby You have got to love someone Gonna be my lover Girl I'm telling everyone Gonna be my baby I can't treat you like a friend I can't treat you like a friend

Thank you for the love And then I want to say Thank you for the dream I want to get away Thank you for your help And now I want to stay Thank you for the love Thank you for the love

Gimme hope and gimme shelter That I have lost along the road Hand in hand we'll walk together And you know you're not alone Thank you for the time, grateful it will be Thank you for the life you spent with me Welcome to my dream and I want to say Thank you for the love Thank you for the love
