

## Got To Love

## Double You

You make me feel  
Love, love is danger  
When it is like a stranger  
Beware of what you do  
Before you're hearts broken in two  
Fight, beware you're swallowed  
Get rid all your sorrow  
Go back on the attack  
Or else she won't come back  
Love, love is anger  
It kills you like a stranger  
Because it has no mercy  
All it can do is curse me  
Fight and don't surrender  
Stand up and just remember  
Go back on the attack  
Or else she won't come back

I've got, I've got no love  
I'm trying to talk to you  
(2x)

Everybody has got to love someone  
(2x)

I've got, I've got no love  
I'm trying to talk to you  
(2x)

Everybody has got to love someone  
(4x)

I've got, I've got no love  
I'm trying to talk to you  
(4x)

You make me feel
