

## Missing You

Double You

Oh yeah  
I never needed anyone  
To throw me on the floor  
Every time you walked away  
I would always say

Remember all the times we had  
But you would run away  
Remember all our yesterdays  
And all that was before

I'm missing you  
I'm missing you  
Oh to be missing you  
Missing you, missing you  
Missing you, missing you

I'm missing you  
I'm missing you  
Oh to be missing you  
Missing you, missing you  
Missing you, missing you

I never needed somebody  
To show me to the door  
I gave you all the best I could  
But all you gave was war

Every time you walked away  
I would always say  
Remember me like yesterday  
I'll miss you more and more
