

Say Hey

Dove Cameron

We are wound up like a clock
Rollin' like we rock
Comin' out to play
Say hey
Kids just buzzin' like a wire
The roof is getting higher
Ain't nothing in our way
Say hey
When we hear the bass
We'll be losing our minds
First note of our song
It's one that goes like

Say hey hey hey
We're gonna make it shake tonight
Just dance your fears away
Say hey hey hey
Who cares if we are wrong or right
We're living for today
Say hey hey hey
While our song is on everything is okay
Say hey hey hey
We're gonna make it shake tonight
We're doing it our way
Say hey hey hey

We - we just can't relax
Crank it to the max
Let go of yesterday
Say hey
Drums crashin' through the floor
Swingin' on a chord
Scream until it breaks
Say hey
Everybody shout
There's no need to pretend
If it stops we're just gonna do it again

Say hey hey hey
We're gonna make it shake tonight
Just dance your fears away
Say hey hey hey
Who cares if we are wrong or right
We're living for today
Say hey hey hey
While our song is on everything is okay
Say hey hey hey
We're gonna make it shake tonight
We're doing it our way
Say hey hey hey

We shine so bright like laser lights
The stars align for us tonight
It never ends, just hit replay
So we can always feel this way

1, 2, 3, 4 Go!

Say hey hey hey
We're gonna make it shake tonight
Just dance your fears away
Say hey hey hey
Who cares if we are wrong or right
We're living for today
Say hey hey hey
While our song is on everything is okay
Say hey hey hey
We're gonna make it shake tonight
We're doing it our way
Say hey hey hey
