

# True Love

Dove Cameron

If I could do it all over, maybe I'd do it different  
Maybe I wouldn't be here, in this position

I found you then I lost you, looking back is torture  
And it hurts to know I let you go, you live right around the corner

And I could've had it all, could've had it all

True love, I know I had it  
True love, was so hard to find  
True love, If I could get it back,  
I'd never let it go this time

True love, is an inspiration  
True love, it was mine, all mine  
True love, If I could get it back,  
I'd never let it go, I'd never let it go this time

Feeling it all around me, wondering how I blew it  
And I wanna know the secret, of how they, do it

No such thing as perfection, I'm still learning that lesson

To forgive is key to forgetting me  
And I'm staring at my reflection

And I could've had it all, could've had it all

True love, I know I had it  
True love, was so hard to find  
True love, If I could get it back,  
I'd never let it go this time

True love, is an inspiration  
True love, it was mine, all mine  
True love, If I could get it back,  
I'd never let it go, I'd never let it go this time

If I knew then what I'd do now I'd be with you tonight  
If I knew then what I'd do now we'd be alright

I could've had it all, could've had it all, could've had it all, could've had it all

True love, I know I had it  
True love, was so hard to find (could've had it all)  
True love, If I could get it back,  
I'd never let it go this time (I'd never let it go)

True love, is an inspiration (oh)  
True love, it was mine, all mine  
True love, If I could get it back, yeah  
If only I could get it back, I'd

True love, I'd never let it go  
True love, it was mine, all mine  
True love, I could've had it, could've had it, could've had it all

True love, is an inspiration  
True love, it was mine, all mine  
True love, yeah  
If I could get it back. I'd never let it go this time  
I'd never let it go, this time

True love
