

# You, Me And The Beat

Dove Cameron

Hey Hey

No you don't need a reason  
Just get up and dance  
When you turn up the music  
Let it blast  
You know we got the whole world  
In the palm of our hands  
Don't let it go  
Don't let it go  
Don't let it go

Cause now  
You're living life out loud  
With your head up in the clouds  
Yeah it feels so right right now, now, now  
Hey

You and me and the beat  
Go great together [x3]  
You and me and the beat go great together now

Oooooooooo  
You and me  
Go great together [x2]

Anything can happen  
Any time or place  
From the floor to the rafters  
To outer space  
We can move any mountain  
Just push the pace  
Just let it flow  
Just let it flow  
Just let it flow

Cause now  
Just live your life out loud  
With your head up in the clouds  
Yeah it feels so right right now, now, now  
Hey

You and me and the beat  
Go great together [x3]  
You and me and the beat  
Go great together now

Oooooooooo  
You and me  
Go great together [x2]

When we're together  
Somehow it works  
And having real friends  
Makes it worth it  
And in the future  
When we both look through that

Rear view mirror  
We'll know  
We had good times

You and me and the beat  
Go great together [x3]  
You and me and the beat  
Go great together now

Oooooooooo  
You and me  
Go great together [x2]
