

Snowden

Doves

I said man,
can you help me out
bring me back to love
bring me back to life
Oh why should I care

I said how,
could you keep me out ?
without a wish to share
so without a doubt
oh why should I care

we have been warned, it's a classic sign
it's a wicked mind, with an axe to grind
when is it our, our turn ?
so why should I care

yeah we have been warned
it's a classic sign

if this is our last summer
oh why should we care ?
if this could be our last summer
then why should we care ?
