

## Down Below

## Down Below

Can you see me now  
You're the reason why I'm bleeding  
Yeah  
Can you see me now  
You were all I ever needed

And I know  
I was a fool  
I feel you behind the door  
And now I am down  
Baby I'm down  
I am down below

Dive in my shadows now  
More than it is good for me  
Yeah  
Dive in my shadows now  
You were all I ever needed

I will never let you down  
You will always wear my crown  
Baby this is our song  
Together we have gone all wrong  
This is our melody  
A disharmonic symphony  
I will never let you down  
You will always wear my crown

Can you see me now?  
I'm just a shadow of myself  
Can you feel me now?  
'cause you were all I ever felt

I will never let you down  
You will always wear my crown  
Baby this is our song  
Together we have gone all wrong  
This is our melody  
A disharmonic symphony  
I will never let you down  
You will always wear my crown  
Baby this is our song  
Together we have gone all wrong  
This is our melody  
A disharmonic symphony  
I will never let you down  
You will always wear my crown

I am down below
