Right or wrong

Down By Law

Under the sky You see me walk alone You wonder why I honestly don't know To be alone tonight To find the answers What's wrong or tight Your right or wrong How can I see Your right or wrong Which will it be Your right or wrong How can I know Your right or wrong Which way to go? Lying awake at night Thinking of all the things I have to do And things I should have done Decisions to be made I see the path Is it the way? I know the answers out there If I keep looking, will I find it? The answers in the night And if I find it, what then? What then?
