

## Invest in Fear

Down

She's got samples of the best.  
Knife sharp going for the breast  
Full lips whisper: "Opiate and sex"  
She's the sweetest fuck you ever had.

Pill pushing all while mocking death.  
Sharing blood with beer, a dark dress  
She has turned you on inside yourself.  
A Wall of curse that no one can get past.

Invest in fear.  
You're in love.  
Brown sugar in your blood.  
She's a drug [2x]  
she's a drug) [2x]

And again I swear.  
You're in love.  
Brown sugar in blood.  
She's a drug [2x]  
(She's a drug) [3x]

Alone with death, on drugs that suck your best  
A retrovenous sense is left to spread  
Six feet down she's stretched into a hole  
Black flowers resting on her breast

You're in love, Brown Sugar in your blood.
