Lysergik Funeral Procession

Down

Pray to someone I'm going out of my head Dislocate Stay safe in your unmade bed Lysergik funeral procession The world is watched Straight from your TV sets Makes you ill Turn off and drop out in spurts Lysergik funeral procession I get up, get ready to face this world I come down I come down so hard, I hit then bounce In a pool of piss I lay Once revived, I was better off like I was In so many pieces And I'm so damn mad, so fucking mad To lose that special darkness I've got nothing to lose
