

Something Heavenly

Downhere

All the angels see all the angles
with a view from both sides of the line
If I had not such a blind spot
would I have a less difficult time?

Surrendering my ways
I would hang on every word you say

I'm so far from what I wanna be
oh I really am my own worst enemy
Please don't let me get the better of me
take this earthly thing and make it finally
something heavenly
I wanna be heavenly

Air is cleaner
grass is always greener
for the crowd of hosts up where they are
If I could visit I'd just contaminate it
why so big a place for me in your heart?
to leave your glory home
just to make a broken man your own

I'm so far from what I wanna be
oh I really am my own worst enemy
please don't let me get the better of me
take this earthly thing and make it finally
something heavenly
I wanna be heavenly

If I try to soar
I will fall for sure
so let your grace break through
and lift me up upon it to be with you

I'm so far from what I wanna be
oh I really am my own worst enemy
please don't let me get the better of me
take this earthly thing and make it finally

I'm so far
stay close to me
oh oh oh
I'm so far
stay close to me
your making me

something heavenly
I'm gonna be heavenly
