

## Walk Away

Downstait

Hey there, the last time that I saw you  
You couldn't even look me in the eyes  
And my decision seemed to say I meant to hurt you  
It took everything I had, I swear it hurt me too

Not a day goes by, not a day goes by

I told you now, I let it show  
And all the time, I let you go  
There's nothing here to make you stay  
It breaks my heart to walk away

Hey there, the next time that I saw her  
She couldn't even try to act surprised  
This time, I swear she meant to hurt you  
I showed her everything and now she know it too

Not a day goes by, not a day goes by  
Not a day goes by (I told you, I told you)

I told you now, I let it show  
And all the time, I let you go  
There's nothing here to make you stay  
It breaks my heart to walk away

If you and I could change the past  
Maybe somehow we'd make this last  
I never hurt so much inside  
You'll never know how much I tried  
Understand the things I say

I told you now, I let it show  
And all the time, I let you go  
There's nothing here to make you stay  
It breaks my heart to walk away

I told you now, I let it show (Not a day goes by)  
And all the time, I let you go (Not a day goes by)  
There's nothing here to make you stay (Not a day goes by)  
It breaks my heart to walk away (Not a day goes by)
