

Wherever You Go

Downstait

All of my life I've waited for
Someone like you to knock on my door
But our lives are just headed off in separate ways
(In separate ways)
It's not getting easier to say, but I know

Wherever you go, I'll remember your name
Your voice still lingers through my brain
I wish you the best, I want you to know
I wish we had time to watch this grow

As much as I'd like to make things work
You will be gone before things turn
Out to be worth the time we've wasted away
(We wasted it away)
It's not getting easier to say, but I know

Wherever you go, I'll remember your name
Your voice still lingers through my brain
I wish you the best, I want you to know
I wish we had time to watch this grow

I want you to know I wish you the best,
And I just can't stand it, I won't let you go

But I know
Wherever you go, I'll remember your name
Your voice still lingers through my brain
I wish you the best, I want you to know
I wish we had time to watch this grow

Wherever you go, I'll remember your name
Your voice still lingers through my brain
I wish you the best, I want you to know
I wish we had time to watch this grow

I won't let you go
