

Clean Getaway

Downtown Singapore

I see you talking
But nothing's coming out
Words of silence
They don't move me
Let it be

I know you have it
Pretentious gestures
You know you're good at playing the role of losing
Let it be
The past is over you and me

Every warning
You have given me
Lasts forever
It lasts forever

Don't hold the past
In the palm of your hand
When you can throw it all away now
Let it be

Every warning
You have given me
Lasts forever
It lasts forever
Every warning
You have given me
Lasts forever
It lasts forever

Can't you see that
You're OK
It's set in stone that
We'll live to see the day
When things are better can't you see
If you look past you and me
It gets better
It gets better
As days go on

Every warning
You have given me
Lasts forever
It lasts forever
Every warning
You have given me
Lasts forever
It lasts forever
