

The Music Video Game Olympics

Dr. Acula

The slime on your fingers will crawl
You chubby little failure
You better play a lot right now
Like the king on the ground it's done
It's not your fault
Fault fault
That you can't do this
So hold hold you'll do it again
You'll soon become a legend
When night falls you'll press play
Someone should pay good money for this
Someone should pay me for my lack of real activity
Nice try what the fuck are you doing
Who the fuck am I to do this here
Move your fucking hands
You always wanted what I had
And couldn't hack
Wonder what happened to your life you dumb twat you fucked your
self
Life you dumb twat go fuck yourself
