

## Long time ago

Dr. Alban

Such a long time ago, like a fallen angel  
You dropped right out of the blue

The sun was shining bright  
And everyone could see it  
We came up walking it  
And could hardly believe it  
You wanna be my friend  
And always were not love me  
What about the things you do  
Is always gonna haunt me  
Why you comin up again  
I want to know

Such a long time ago, like a fallen angel  
You dropped right out of the blue  
You have got a long way to go  
It's now all too late to mend  
What was broken on the blue

Such a long time ago, like a fallen angel  
You dropped right out of the blue  
You have got a long way to go
