

Plastic Smile

Dr. Alban

A lot of man know me
A lot of man still wanting to know me
Talk behind my back and put me down
What a thing call plastic smile
Come down don't show me this plastic smile
Come straight and forward
No debi debi business
A lot of man think they know but a lot of them don't
They come backstage with a plastic smile
They check for the rich and check for the famous
They say sweet things they don't really mean
A lot of man know me

He's got a plastic smile on his face
She's got a plastic smile on her face

A lot of girl know me
A lot of girl still wanting to know me
A lot of girl think they know me
But a lot of them don't
They say sweet things they don't really mean

Check that check that that are plastic smile
Don't call me the doctor call me my name
Not because I am the man who wrote "It's my Life"
Just be yourself I and I will be myself
Don't play no games at all on me
A lot of girl know me
