

# Long Way Down

Dr. Dog

I fell asleep around quarter to four  
I had a dream my baby didn't want me no more  
I was drowning in a sea of love  
I was swallowed up by the water above  
Oh water above, oh water below  
Take me away in your undertow  
I've been drinking from a broken cup  
And a long way down means a long way up

Yeah a long way down, means a long way up

When I came to  
I was feeling high  
I got a telephone call from a friend of mine  
Coming through so loud and clear  
Yeah he was picking me up  
Man he felt so near  
When I hung up, and I looked around  
I could hear the rain hit the cold cold ground  
But there was sunshine just because  
and it didn't matter what the weather was

Yeah a long way down, means a long way up...

Something unreal.  
I won't slave for them  
I won't behave for them.  
I will be brave.  
You can laugh about it,  
If you just let go.
