

Twilight

Dr. Dog

I catch a falling star
Beneath the sky of velvet blue
I catch the night bird's call
Beneath the honeymoon with you

To sweethearts in love with the twilight
That thrills you and fills up your cup
Just outside
At night
Looking up

Silhouettes of alley cats
The day is done
The night is new
I've fallen into a dream
Beneath the honeymoon with you

To sweethearts in love with the twilight
That thrills you and fills up your cup
Just outside
At night
Looking up

To sweethearts in love with the twilight
That thrills you and fills up your cup
Just outside
At night
Looking up
