Nationowl divides this bomb to blow Adios serials worldwide Once inside ya ride, usin the mic like a screwdriver to break down the speed While labels were sound asleep, Nowl peeped and creeped and stole the ground beneath they feet Far from the bail, still makin my sales Movin tapes like weight, we's hip-hop cartel takin over, no doubt Like thongs, they ass out but win amounts with the Doctor Dre, all day cash his cheques Like Play, I hittin you in the head like strays (BUU-YU-KOW!) Nationowl's defence covers my ass and team o' outcast niggas who're quick to blast Our beat's on hit, keep the peace on MC's couldn't find my path (Where you at niggas?)

In the last days, which side will you be on? Nationowl's on the side that I beat on

I demand put me on
From the door I use MC's to wipe my feet on
My shit be bumpin like in-grown hair
For twenty-six years trained in ghetto warfare
Nigga, I see more green than St. Patrick
Pro actors, game of life with no practice
Controllin craps like I had a remote
It's a rule, now go enter ya tomb
No joke, much over I scold
It's some game for all who's tryin ta split ya coats
Best believe that these are our last years
Prepare or get done from the rear
As we move there, where? The final frontier
United we stand, divided we don't have a prayer

Pledge a legiance to my team
Let's scheme, nigga, we gots ta get CREAM
Cos worldwide shit's outta control
Why you can't get down with Nationowl
Young and old, my niggas who's on parole
Why you can't get down with Nationowl
Bitches who own, my niggas whose heart is cold
Why you can't get down with Nationowl
