

## Love Hound

Dr. Feelgood

You treat a man like a dog and that's just what you get  
You may try to leave him but he'll follow you yet  
Can't do a thing to get him off a your trail  
You better give up, he's hot on your tail

You used to laugh at me when i said i'll come back  
You let me roll over, you let me play dead  
You think your little lap dog is dragging you down  
I'm a oooh love hound

You went downtown and i followed you there  
A sniff of perfume still hung in the air  
You took the taxi, i took my time  
Rolled down the window and you hid me outside

You used to laugh at me when i said i'll come back  
You let me roll over, you let me play dead  
You think your little lap dog is dragging you down  
I'm a oooh love hound

No earthly reason to live in my home  
Just pure motor reflex is keeping me going  
Don't bother explaining it'll bring me down child  
All i can hear is the call of the wild

You can tease your little puppy mama, that's alright  
But when they grow up they just love to fight  
You tremble in the dark when you hear that sound  
I'm a oooh love hound

A love hound howls under the moon  
A love hound gonna come and love you soon  
Love you baby till the morning light  
Feel that little old love hound bite  
Open up your window mama, what's that sound  
I'm a oooh love hound
