## **Mad Man Blues**

**Dr. Feelgood** 

I go home at night about half past four All that knocking on my door

I got the mad man blues I got the mad man blues I got the mad man blues Man don't you know, don't you know

I love these women, gonna treat them right Ain't gonna fuss and ain't gonna fight

I got the mad man blues I got the mad man blues I got the mad man blues Man don't you know, don't you know

I got the mad man blues I got the mad man blues I got the mad man blues Man don't you know, don't you know

You beg me now baby and not before I'm gonna come round and kick your door

I got the mad man blues I got the mad man blues I got the mad man blues Man don't you know, don't you know

I don't wanna fuss, I don't wanna fight Ain't gonna do nothing but treat you right

I got the mad man blues I got the mad man blues I got the mad man blues Man don't you know, don't you know

I got the mad man blues I got the mad man blues I got the mad man blues Man don't you know, don't you know

I got the mad man blues I got the mad man blues I got the mad man blues Man don't you know, don't you know
