

Neighbour Neighbour

Dr. Feelgood

Neighbour neighbour
Don't worry about what goes on in my house
Always looking for something to gossip about
You're going around from door to door
Shooting your mouth about things you don't know

Neighbour neighbour
Don't worry about what goes on in my house
Neighbour neighbour
Don't worry about how i treat my wife
You tell everybody we fuss and fight every night

If you cause me trouble it's your trouble too
Something bad's gonna happen to you
Neighbour neighbour
Don't worry about what goes on in my house
Neighbour neighbour

Don't worry who knocks on my front door
You're walking, talking, pacing all over the floor
Screaming and scheming right through the halls
You got your big ears, man glued to my walls
Neighbour neighbour

Don't worry about what goes on in my house
In my home
In my home
In my home
In my home
