You got a new way of walking, got a new way of talking You think that you're fooling me and I can't dig it Girl I got a message, coming down the wire Better that you know yourself

You've been rocking with somebody new And it hurts all over my feelings
You've been rocking with somebody new

You got a new way of dressing and a new way of dancing You think that you're fooling me and I can't see it Girl I got a message, coming down the wire Better that you know yourself

You've been rocking with somebody new And it hurts all over my feelings
You've been rocking with somebody new

Well, I'm still gonna be with you Never gonna be the same People been talking 'bout this business for years Still, the same old game

You got a new way of kissing that I've been missing You think that you're fooling me and I can't tell Girl I got a message, coming down the wire Better that you know yourself

You've been rocking with somebody new And it hurts all over my feelings
You've been rocking with somebody new

You got a new way of kissing that I've been missing You think that you're fooling me and I can't tell Girl I got a message, coming down the wire Better that you know yourself

You've been rocking with somebody new And it hurts all over my feelings You've been rocking with somebody new...
