

# She Does It Right

Dr. Feelgood

If there's something that i like  
It's the way that woman walks  
And if there's something i like better  
It's the way she baby talks

She does it right  
She does it right  
She works hard every night just to make me feel alright  
She told me not to worry  
And there ain't a single trouble in sight

I said you you ought to see her jerk  
You ought to see her walk on the floor  
And when she gets back to her seat  
Mmh all the people cry for more

She does it right  
She does it right  
She works hard every night just to make me feel alright  
She told me not to worry  
And there ain't a single trouble in sight

I said i'd give her anything  
That her little heart desires  
Anything she wants  
Just to keep her by my side (satisfied)

She does it right  
She does it right  
She works hard every night just to make me feel alright  
She told me not to worry  
And there ain't a single trouble in sight

If there's something that i like  
It's the way that woman walks  
And if there's something i like better  
It's the way she baby talks

She does it right  
She does it right  
She works hard every night just to make me feel alright  
She told me not to worry  
And there ain't a single trouble in sight

She does it right (8x)
