## She's The One

**Dr. Feelgood** 

She's the one, don't let her get away She's the one, believe me when I say She stole my love and know she's gotta pay

She's the one, I'd like to let her go She's the one, 'cause I hardly know She stole my love and now she's gotta pay

It's not right for her to run around She took my love and stomped it to the ground

She's the one, stole my love from me She's the one, but I won't set her free She stole my love and now she's gotta pay

It's not right for her to run around She took my love and stomped it to the ground

She's the one, stole my love from me She's the one, but I won't set her free She stole my love and know she's gotta pay
