

# The Feelgood Factor

Dr. Feelgood

When you're feeling down and you're all alone  
There's a little lady you can telephone  
When she knocks on your door makes your heart stand still  
You give her the money, she gives you the thrill

She got what you want  
She got what you need  
It's the feelgood factor and it's guaranteed  
Feelgood factor  
She got the feelgood factor  
Feelgood factor

Whatever you want, she don't care  
She got the stock and she'll give you a share  
It's a take-over bid your deposit is due  
And if your credit is good she'll play footsies with you  
She'll take you round the world and bring you back again  
Deals in pounds or dollars or marks or yen  
She goes in at the bottom and out at the top  
And she keeps on going till your profits drop

She got what you want  
She got what you need  
It's the feelgood factor and it's guaranteed  
Feelgood factor  
She got the feelgood factor  
Feelgood factor
