

# Trying To Live My Life Without You

Dr. Feelgood

I smoke five packs of cigarettes a day  
It was the hardest thing to put them away  
I drink four-five bottles of wine  
I had a glass in my hand all the time

Thought breakin' those habits was hard to do  
Not compared with the changes you put me through

Tryin' to live my life without you baby  
It's the hardest thing I'll ever do  
Tryin' to forget the love we once shared  
It's the hardest burden I'll ever bear

I got the worst reputation around  
Chasing all the women in town  
I thought changing my bad livin' was hard to do  
But the hardest habit baby, was loving you  
I'll done all the things that I'll had to do  
It's gonna take a miracle to get over you

Tryin' to live my life without you baby  
It's the hardest thing I'll ever do  
Tryin' to forget the love we once shared  
It's the hardest burden I'll ever bear
