

Here Come The Blues Again

Dr. Hook

You haven't been off my mind since you left me
It seems like you've been gone a year or two
It's really such a shame 'cause my love's such a beautiful thing
And it hurts to know you want so much to forget me

Although you've been gone for less than an hour
Already I feel drained of all my power
Yeah, suddenly I'm all alone in a place that just ain't home
Here come the blues again and they're gonna get me

I may wake up in the morning crying
I'm at such a loss for what to do
Maybe I won't feel this way forever
Maybe I'll feel better in a day or two

You haven't been off my mind since you left me
It seems like you've been gone a year or two
It's really such a shame 'cause my love's such a beautiful thing
And it hurts to know you want so much to forget me

I may wake up in the morning crying
I'm at such a loss for what to do
Maybe I won't feel this way forever
Maybe I'll feel better in a day or two
Maybe I'll feel better in a day or two
