

# I Wanna Make The Women Tremble

Dr. Hook

When I was a young boy,  
my grandpa said to me  
Little boy wish upon a star  
tell me what you wanna be  
Would you like to be a lawyer,  
would the money appeal to you  
Grandpa wants to help you boy  
tell me what you want to do

I wanna make the women tremble  
I wanna make the little girls moan  
I wanna play guitar 'til the sun comes up  
And make love all day long

I wanna make the women tremble  
I wanna make the little girls moan  
I wanna play guitar 'til the sun comes up  
And make love all day long

Now I am a grown man,  
I like just what I do  
I love the pretty women Lord,  
and the women love me to  
Well I've got my special woman  
and that woman loves me true  
She understands my situation  
she knows what I gotta do

I gotta make the women tremble  
I gotta make the little girls moan  
I gotta play guitar 'til the sun comes up  
And make love all day long

I seen another woman  
and my body begins to ache  
My knees begin to tremble  
and my hands begin to shake  
Now that woman makes me tremble  
the little girl she makes me moan  
she plays with me 'til the sun comes up  
and loves me all day long

I wanna make the women tremble  
I wanna make the little girls moan  
I wanna play guitar 'til the sun comes up  
And make love all day long

I wanna make the women tremble  
I wanna make the little girls moan  
I wanna play guitar 'til the sun comes up  
And make love all day long
