

Knowing She's There

Dr. Hook

Knowing she's there
Makes it possible to live.
Knowing she's there
Giving all she's got to give.
And when the road got long,
And the load got heavier,
She'd whisper,
"Babe, I'm right here with ya'"
And made it easier to bear
Knowing she's there.

Knowing she's there
When I reach out in my sleep.
Knowing she's there
To hold me when I'm weak.
And when the nights got cold
And the days got drearier,
She'd whisper,
"Babe, I'm right here with ya'"
And made it easier to bear
Knowing she's there.

Why did it make me
Take the ladys love for granted?
How could I live so deep in a woman
And never notice a change?
Why doesn't any love
Ever go the way you planned it?
And why doesn't any woman
Ever stay the same?

Now knowing she's there
Instead of being here with me.
Just knowing she's there
Giving him what she gave me.
And it ain't that I can't live without it,
But every time I think about it,
Something inside me screams.
Something inside me burns.
I feel something inside me tear
Knowing she's there.
