

## Knowing She's There

Dr. Hook

Knowing she's there  
Makes it possible to live.  
Knowing she's there  
Giving all she's got to give.  
And when the road got long,  
And the load got heavier,  
She'd whisper,  
"Babe, I'm right here with ya'"  
And made it easier to bear  
Knowing she's there.

Knowing she's there  
When I reach out in my sleep.  
Knowing she's there  
To hold me when I'm weak.  
And when the nights got cold  
And the days got drearier,  
She'd whisper,  
"Babe, I'm right here with ya'"  
And made it easier to bear  
Knowing she's there.

Why did it make me  
Take the ladys love for granted?  
How could I live so deep in a woman  
And never notice a change?  
Why doesn't any love  
Ever go the way you planned it?  
And why doesn't any woman  
Ever stay the same?

Now knowing she's there  
Instead of being here with me.  
Just knowing she's there  
Giving him what she gave me.  
And it ain't that I can't live without it,  
But every time I think about it,  
Something inside me screams.  
Something inside me burns.  
I feel something inside me tear  
Knowing she's there.
