

Walking My Cat Named Dog

Dr. Hook

I'm walking all around the town
I'm seeing all the people down
Walking around, talking around

Me and my cat named Dog
We're walking high against the fog
Singing my song, singing my song

Happy, sad and crazy, wonder
Choking up my mind with perpetual dreaming

Drifting up and down the street
Searching for the sound of people
Swinging their feet, swinging their beat

Dog is a good old cat
Now people what d'ya think of that
'Cause that's where I'm at
(That's where he's at)

Happy, sad and crazy, wonder
Choking up my mind with perpetual dreaming

Drifting up and down the street
Searching for the sound of people
Swinging their feet, swinging their beat

Hey Dog is a good old cat
Now people what d'ya think of that
'Cause that's where I'm at
(That's where he's at)

That's where I'm at
(That's where he's at)
That's where I'm at
(That's where he's at)
