

## Who Dat

Dr. Hook

Who dat I see laughing all alone  
Who dat I see faraway from home  
I guess that's me, it must be me  
Who dat I see racing for the sun

Who dat said ain't never gonna own no-one  
I guess that's me, it must be me  
You know I paid my dues  
Every time I got a little good news

Feeling I'm hot gonna take my shot  
Now how does that sit with you  
Who dat I see running by my side  
Who dat coming along just for the ride

It must be you, it must be you  
Who dat I see getting too much love  
Who dat never know when he's got enough  
I guess that's me and it must be you

You know I paid my dues  
Every time I got a little good news  
Feeling I'm hot gonna take my shot  
Now how does that sit with you

Who dat, I say who dat  
Who dat, I say who dat  
Who dat, I say who dat  
Who dat, I say who dat...
