

## Big Shot

Dr. John

I know you're holding, but I hold it down  
Don't over sell it, you can hang around  
Never been, done like I came  
Ain't never gonna be done again  
Ain't stuck up, don't put on the way  
Bust some kush, I never split the ash  
It never was, never gonna be  
Another big shot like me  
I'm the big shot, landing the cut  
For you to see,

Let me and you, go awesome ways, yeah  
I do your thang in my own kinda style  
If I don't kill you I'm shoot to kill ya  
Got the remedy that's sure to heal ya  
It never was, never gonna be  
Another big shot like me  
I'm the big shot, landing the cut  
For you to see,

You don't ... second line, ...  
Stach you up like you up make you smile  
... don't leave home, ...  
Send you ...priest,  
... gold diggers running ...that's my  
Hit you out, holding a ...I miss ya  
So hang you off, shut them off that's right  
...when I say goodbye  
... and for you would care  
I can rough and tough it if you like it bad

It never was, never gonna be  
Another big shot like me  
It never was, never gonna be  
Another big shot like me  
It never was, never gonna be  
Another big shot like me  
I'm the big shot, landing the cut for you  
To see .
