

Me Minus You Equals Loneliness

Dr. John

Ever since she moved, took all the happiness
Ever since she left my life in a mess
Everything she left, her old address
Baby, can't you see you left my life in a mess
And baby I must confess

Baby, that me minus you
(Do what you want to me, do what you will)
Equals loneliness
(Do what you want to me, do what you will)
And me minus you
(Do what you want to me, do what you will)
Equals loneliness

All the people, the whole neighborhood
All used to tell me 'bout how you been so good
And all of the places, baby, that we used to go
That's the very same places I just don't wanna go, no more

Really drain me so and I
(Do what you want to me, do what you will)
Me minus you
Equals loneliness
(Do what you want to me, do what you will)
Me minus you
(Do what you want to me, do what you will)
Equals loneliness, equals loneliness

I need you to know
I need Y O U

I said me minus you
(Do what you want to me, do what you will)
Equals loneliness
(Do what you want to me, do what you will)
